

How to hang the sun sail

1. You will find the sun sail in the plastic box in the wood shed
2. Start near the arch with the "A"

3. B next, similar to A with attached to the short rope.

4. Attach first the sail "C" with the rope. Only in a second step shorten the distance using the hook.

5. Very similar to C, first the rope then the hook.

Please remember to undo the sail in case of rain or heavy wind.

We strongly recommend undoing the sail each time to leave the property for a longer time period.
